

The Ultra Cutter™

The most efficient and dependable roof cutter on the market.

The streamlined design, easy component accessibility, and high-quality components of the Garlock Ultra Cutter will increase your overall production and reduce the maintenance problems associated with conventional roof cutters. Easy to operate and maneuver, the Ultra Cutter delivers unmatched cutting performance.

11-hp Honda

Honda Ultra Cutters

- 11-hp, Honda engine for maximum horsepower and smoother, cooler running operation
- The triple-wide v-belt with quick-change feature makes on-deck maintenance a reality
- The belt pulley is secured with an exclusive Taper-lok bushing– the strongest lockin system available
- Cleaner air intake
- Improved depth-setting control

9-hp Honda Cutter

- Smooth and safe cutting performance with greater maneuverability
- Improved debris containment
- Easier component accessibility
- Pivoting blade guard ensures uniform contact with the roof surface and easier blade inspection
- Streamlined, ergonomic design with proper weight ratio over the blade

13-hp Honda Ultra Cutter

If you want to step up from the 9-hp and 11-hp Honda Ultra Cutters, consider the 13-hp Honda Ultra Cutter. It's got the same Honda engine name you trust but with the additional horsepower and it can take a bigger load and run cooler. It's even got an electric start engine.

	Honda	Dust Master
SPECIFICATIONS		
length	60"	60"
width	28"	28"
height	36 3/4"	36 3/4"
weight	270 lbs.	389 lbs.

Innovative technology.
Strict attention to quality.

Dust Master™ Ultra Cutter

- Maximum protection against hazardous dust and airborne particulates including asbestos
- Used in conjunction with respirators, no other system offers better protection
- Removable protection package mounts directly on the Ultra Cutter
- Water-dampening system releases a precision spray pattern inside the blade guard
- The H.E.P.A. vacuum system collects the remaining particulates
- The protection package is removable so the saw can be used as a regular roof cutter
- 9-hp, 16-cu.-in. Honda engine for maximum horse power and smoother, cooler running operation

Angler Carbide Blades

- 12 1/4" overall length with full 1/4" wide carbide tips
- Precision cutting angle maximizes surface contact and minimizes force of blade impact blades last longer
- Easily slice through materials, even stubborn resaturants
- Standard 2-tipped Angler blade or optional four-tipped Quad blade
- Fits on competitive models
- 14" 2-tipped Angler blade also available

"Our Garlock Ultra Cutters are in use all the time. My guys just leave the other cutters sitting in the yard."
